Gold opened at 130½, sold down to 129½, and closed at 129½. The exports to-morrow are expected to be \$1,600,000.

Government securities are all strong, but the preference is given to the currency debt. For the 7.30s, specie, 102½ is bid, and the first and third series cannot have under 102½ in any amount. For one-year certificates 104½ is paid freely. State stocks, Railway mortgages, Bank shares, and all sound investment securities, are firm and are offered in small amounts. The small amount of money available shows that the market is very firm and more disposition shown to speculate in Western Water Power sold at 42. Cary Improve another Boston Land Company, which sold last year is valuable now at 16. Mariposa is firm at quote and is in steady demand. Coal stocks are strong. Railway shares are strong and in many cases higher. The extreme advance paid at the regular board was sustained under large sales to realize profits. Michigan Southern and Cleveland and Pittsburgh were chief favorites, and are supported by strong companies. There are more orders from the outside but speculators are inclined to make up pools rather than buy quietly a moderate line of stocks, in order to save time. The four choices are fast movers. Wheat, upon the present and prospective abundant supply of money growing disposition is shown to prefer an advance in Railway shares. At the Board the market was strong and excited. Erie, which sold up to 75½; New York Central, 89½; the demand, and sold at 93½. The Western line firm, but without any special activity. After the close the market was firm, and closed strong at quotations Erie was the most active stock, and sold as high as closing at 75½ & 76. There is a large short interest in stock yet uncovered, and the deliveries are made great irregularity. Cleveland and Pittsburgh and Kansas Southern were in active demand, and are both as borrowing demand. The closing prices were: Cars, 94½-60½; Cumberland Coal, 43½ & 45½; Quicksilver, 94½; Mariposa Preferred, 25½-34½; New York Central, 89½; Erie, 75½ & 76; Hudson River, 100½-101½; Reading, 101½ & 102½; Michigan Central, 109½; Michigan Southern 104½ & 105½; Illinois Central Scrip, 123½-124½; Cleveland Pittsburgh 81½ & 83; Cleveland and Toledo, 101½ & 102½; Rock Island, 94½ & 94½; North-Western, 28½ & 29½; Preferred, 20½ & 20½; Fort Wayne, 99½ & 99½.

Money is increasing in abundance on call, and the currency from the West is still large. The amount of money required to move the remainder of the crop market this Spring is unusually small, and until a crop is ready to be marketed there will be no demand which the Atlantic cities cannot readily supply without affecting rates. The Treasury has ceased to issue certificates, and will soon be able to pay off a substantial amount of temporary loans—a step which will add materially to the volume of the currency and to the amount of capital seeking temporary employment. A policy of the Treasury is not to be taken into consideration, but indirect expansion of currency for some time. There is a rapidly increasing class of people who are anxious that the Summer of 1866 will be marked by rapid contraction in the financial centers, the result of an accumulation of irredeemable paper money seeking short

layment, *specie*, *as stocks* &c. *also* offer. The rate for best bills is 94½ per cent, and for call loans 4½ per cent.
 Foreign exchange is moderately active at firm rates. New York produce bills are scarce at 108½-110.
 In freight the engagements to Liverpool are 50,000 bush. Corn at 3½, and per steamer 50,000 bush Corn at 3½-4½, 100 bales Cotton at 3-16½-13, and 8,000 bush. Oats at 3½.
 The business of the Sub-Treasurer was: Receipts, \$103,154, 103-100 for Customs, \$167,000; Payments, \$1,854, 617-86; Balance, \$168,800, 651-99; Gold Notes, \$185,000.
 The exports, exclusive of specie, from the port of New-York to foreign ports for the week ending May 15, 1866, were \$7,378, 772.
 The receipts of the Housatonic Railroad Company, for the month of April, were:
 1866. \$27, 835-41 1865. \$23, 237-30 Increase. . . \$4, 597-11
 The traffic of the Atlantic and Great Western Railway for the month of March was:
 1866. \$388, 480-1 1865. \$26, 870-1 Decrease. . . \$361, 609-10
 The Chicago Times of Saturday says:
 "The monetary movement in relation during the past few days has imparted more life in the money market, yet, with a large amount of currency, the banks are discounting all first-class paper at the current rate of 10 per cent. Financial matters are looking up as easy money markets, and in other words a dollar market, until the incoming harvest is gathered and the movement seaboard-westward commences. The supply of Eastern currency is inadequate to meet current wants, and rates continue firm at 60c, per \$1,000 buying and 1-10 of 1 per cent selling.
 The *President* Journal says of printing cloths that the market is active and prices have advanced from 14 to 1½, during the week. Best 64x84 are held at 12½-13c. The following are the sales: 1,000 pieces 52x82, 9½; 7,000 do. 56x80, 9½; 8,000 do. 56x50, 9½, to be made; 10,000 do. 60x84, 2,000 do. 60x81, 10½, early in the week; 4,500 do. 64x84, 12c, at the close; 6,000 do. 61x84, 11c, early in the week; 5,000 do. 64x84, 11½; 6,000 do. 64x84, 11½; 19,000 do. 64x84, 11½; 15,000 do. 64x84, 12c. Total, 113,500 pieces.
 The North Missouri Railroad Company has entered into a contract for the construction of over 100 miles of additional road, being that portion of its main line north of Macon City, and so much of its west branch as is east of Brunswick. This extension is to be completed by next Winter.

The Boston Traveller of Monday says:

The money market still continues amply well supplied with idle currency, which is easily obtained by borrowers in fair demand. It is said to be offered at 4 per cent, for 60 days, and in occasional instances on shorter pledges at 3. Some pay 6, when, by straining a point, they might be accommodated at 5. The banks are said to be in a position to furnish upon whom they may have to call again, under different circumstances. The banks are taking mercantile paper with short maturities, at legal rates, and lending freely on call. The best of the commercial notes having a few months to run, are negotiated in the street at about 7 per cent, and names for paper good, but in less than 60 days, are not offered at more than 6 per cent. For paper of longer date, and, although there is an active demand, it is not easy to pass much that is outside of the first-class.

The Cincinnati Commercial of Sunday remarks:

Every one is in better supply in the ordinary course of business than has heretofore been. The discount demand for money is not in the aggregate large, but it is fairly active on the part of the banks, and the tendency seems to be rather to accumulate than to loan. The latter, however, seems to be more a consequence of the continued heavy movement of currency Eastward to settle our trade balance with England, than of any real want of money. The present situation of trade affairs there is not much promise of the immediate future.

The total number this week, 4,979 head, compares with 4,750 head last week, and with 2,535 head, average per week for a year, and with 4,176 for the corresponding week one year ago.

The number sold yesterday and to-day at the principal market was 2,720 head, compared with 3,740 head last week, and with 2,720 head, average per week last year, and with 3,194 head, at the opening one year ago.

THE OPENING, OR PRINCIPAL DAY OF THE MARKET.

On Monday last, the principal day of the market opened thus: There was only 2,720 bulkheads on sale, which is 500 more than last Monday, and the total supply of the week was 500 less than last week's supply. The supply was encouraged by the fact that there was no great advance upon last Monday's price. But there here was one exception by Cook & Thompson, J. F. Johnson, extra fine Ohio, at 16¢. Some small lots of the choice of other droves sold at 16¢, but the great bulk of the
